

Exclusive Funded Accounts

Amey Finance Academy are pleased to offer an outstanding service exclusive to its members only. If you have an up-to-date subscription with IM Mastery Academy, you have the option to access a fully funded trading account. All the packages are detailed on page 2 of this document.

To get started you must select a plan and pay the one-time subscription fee. This gives you access to an official Funded Account Evaluation. This is a demo account. If you successfully complete the challenge you will be awarded a Live Funded Account.

First you must pick a plan that suits you and your trading style. Make your payment (details on page 3) and submit some basic information. Once you receive your login details, you start trading on your demo account.

There are two stages to the evaluation: Stage One requires a minimum of 10 days trading, but can last up to 30 days. Stage Two requires a minimum of 20 days trading but can last up to 60 days. So, if all requirements are met, you could complete the evaluation in 30 days and receive a Live Funded Account. However, you will have up to 90 days to succeed. If you fail the evaluation you can repurchase and try again. Please note that we do not provide discounts for any repetitions.

If you pass the test, the Risk Team will review your account and notify you of your success. You must provide your KYC documents and a signed agreement and then your application to go live will be submitted and, if all checks out, funded! Once approved you will receive your MT4 login details and your funded account will be ready for trading. Your capital balance will be the same as for your evaluation process.

You will be evaluated on a demo standard account at an Australian VFSC regulated broker Trademax. When you pass you will get an Industry-standard MT4 provided by Australian VFSC broker Eternity Global Ltd. You can only trade using 28 currency pairs and gold. Indices and Crypto coming soon.

There is no daily loss limit for any of the funding plans, but the drawdown limit is 10% for each option. The leverage is 1:100, allowing for Traders with developed and consistent strategies to apply them to large amounts of capital.

Trading positions can be carried overnight and over the weekend. There are few restrictions placed on your trading style and strategies. For example, Hedging, EA's, trade copiers, stacking, martingale and over leveraging trading strategies are not allowed. In a case where a trader is found using any prohibited strategy a warning email will be sent out, if ignored, account leverage will be reduced to 1:10 until completion of the evaluation. In extreme cases, the account will be closed and the subscription fee refunded. Any profits made from prohibited strategies will be withdrawn and will not count towards the evaluation.

The profit will be split 75% to the trader and 25% to the company. There is 5% profit target to reach in order to request a withdrawal of your profit. There is no limit to the number of withdrawal requests you can make. Withdrawals requested by the 20th will be paid out on the 25th of the month.
